REBATES FOR COMMERCIAL CUSTOMERS

BUSINESS REBATES PROGRAM

OVERVIEW

Energy and water efficiency upgrades make smart investments. The JEA Business Rebates Program offers rebates designed to help you make those efficiency upgrades at a lower initial cost.

The Business Rebates Program helps electric and water business customers replace aging, inefficient equipment and systems with efficient technologies. Through financial rebates and technical assistance, our program provides the right mix for you.

BENEFITS FOR YOUR BUSINESS

- ✓ Efficient technologies reduce your energy and water use and minimize costs.
- ✓ Investments in energy and water efficiency reduce both greenhouse gas emissions and water waste, which help the environment and your local community.
- ✓ Energy- and water-efficient equipment can streamline operations, enhancing workplace productivity and improving employee comfort.

SOLUTIONS THAT FIT

The Business Rebates Program offers rebates for both electric and water measures.

ELECTRIC REBATE OPTIONS

- Lighting
- HVAC
- Refrigeration
- Water Heaters
- Cool Roof and Window Film
- Custom

WATER REBATE OPTIONS

- Ice Machines
- Cooling Towers
- Green Restaurant Association

IMPORTANT REMINDERS

- Most projects require pre-approval prior to ordering, purchasing or installing equipment. Please check program requirements with the JEA Business Rebates Program team.
- Non-residential **electric** customers may receive up to \$100,000 each program year, and **water** customers may receive up to \$30,000 each program year. This cap will be imposed by a customer's federal tax ID.
